

I am opposed to the weaking of the Indiana Do Not Call list. I do not want those businesses that I have existing relationships woiht to be ale to call me as often as they want to. Credit cad companies are notorious for repeatedly soliciting additional products. I fI wish to inquire about these, I can call them or they can send me products in the mail. The banks should not be able to get this exemption. I do not want to be receiving calls from the bank or phone company in the middle of dinner unless there is a problem. This attempt to weaken the law should not be allowed. Our rights as consumers to not recieve these calss should be protected. These business have other ways to communicate without phone calls.
